DuraMax is the highest quality, value priced vinyl sheds in the market today. Intelligently designed, DuraMax offers the advantages of vinyl eliminating rotting of wood or rusting of metal.

DuraMax outperforms all others products in the market, with its superior strength, quick assembly time, maintenance free advantages of vinyl as well as wide double doors. The support beams incorporated in the design can support shelving and window kits, which are also available. Although the actual formulation is proprietary the shed panels are made with 80% PVC resin, including additives to improve impact resistance, heat deflection and color stability. With its contemporary design and **neutral off white color**, DuraMax is more than just a storage shed, its an ideal activity or storage room.

Backyard and Trailer Park shed kits. Used as storage sheds, these patio, deck or lawn structures are the ultimate in no-maintenance, strong, lockable kit sheds. The last shed you will ever need to buy. No more rotting or rusting guaranteed!

PVC Vinyl Panel

Packaging

Your shed will be shipped in a heavy duty cardboard box and will contain all components, hardware and an illustrated step-by-step instruction guide.

Obtaining necessary permits is the sole responsibility of purchaser. Customers agree to hold ScreenHouses Unlimited and manufacturer free of any liability for improper installation, maintenance and repair.

- Basic sheds are either 4' or 5' wide
- All Duramax sheds include a galvanized foundation kit or you can build your own out of 2" x 4" lumber.
- Sliding windows are also a great option

Pricing

Choose the width you need and desired length. Add windows as desired. Our price includes free delivery, no handling charges, no silly fees.

Assembly

Assembly is simple, clean, safe easy and can be completed within a few hours. All parts are pre-cut, drilled and numbered for ease of assembly. Packaging includes all necessary hardware as well as an illustrated step-by-step instruction booklet. You will need a level surface of either wood or concrete that is the size of the completed shed. You can either build a foundation from your own lumber and place it on concrete blocks or pads, or you can purchase our galvanized foundation kit and place it on a level surface.

Please note that the doors operate on the "width" dimension - either the 4', 5', 8, or 10' fronts. Note also that the door on the Sidemate can be on one side only - the 4' wall on the right hand side of the 8' wall from the outside looking in.

**All Prices in US\$ — FREE Delivery in continental USA
