- Widths from 4' to any size!

In order to get a quote... You will **FIRST** need to call your local building department to get the required load ratings for your

Insulated Roof Patio Cover Systems

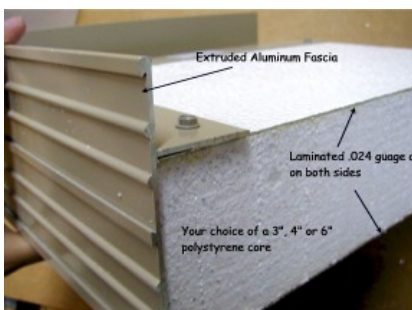

- This is a "materials supplied" patio cover kit designed to add beauty and functional 3 season living space to your home.
- YOU BUILD IT so you can choose the measurements that suit your needs.
- Heavy Duty, Load Bearing Aluminum Construction

ROOF

- Rigid insulated roofing system
- 3", 4" & 6" thick "snap lock" roof system gives superior strength and durability
- Each roof panel is made up of a polystyrene core with an .024 gauge laminated aluminum on both sides
- You may have a roof overhang beyond the screen panel walls of up to 3 feet! This gives you additional weather protection and allows you to control the aesthetics of your room.
- Optional panel designed to hold your ceiling fan!
- Downspouts are NOT included with the unit and are easily purchased locally.

GENERAL

- The front fascia gutter contains a full rain gutter system (3" & 4" ONLY), including scuppers to direct the water run off away from your unit (downspouts purchased locally)
- All panels are a snap lock water tight construction. No silly cables or plastic pieces. The supplied hardware is extruded aluminum for maximum strength and weather-ability.
- This is a very high quality, long lasting patio cover that is easily assembled within one to two days depending on the size you are building.
- Attaches to your home or cottage wall
- Color Choices: Roof Panels - WHITE
- Fascia Gutter - WHITE / CLAY / BRONZE

This is a cutaway of the roof section. It is available in 3", 4" & 6" thicknesses all with the specially formulated polystyrene core with an .024 laminated aluminum skin on both sides. Shown here with the extruded aluminum fascia screwed into place.
