

Walls Only Kit

FRAME

- Frame is all extruded aluminum with baked on enamel finish
- You will be receiving 16' to 20' lengths of the aluminum extrusions which you will use to cut out the vertical and horizontal pieces which are measured specific to your job. A chop saw with a metal blade is all you need.
- Frames - Horizontal extrusions are 1" x 2" / Vertical extrusions are 2" x 2"
- You can place the support bar, which is on the inside of the screen panels, anywhere within the range of center height to 1/3 height.
- This means that you can create a clear line of sight for when you are seated in the room.
- **You will need to make a choice** of no kick-plates or 18" or 24" kick-plates
- **You will need to make a choice** of 8' or 10' high walls
- We will suggest a screen panel width of 36" to 44" wide depending on your system and the loading requirements.

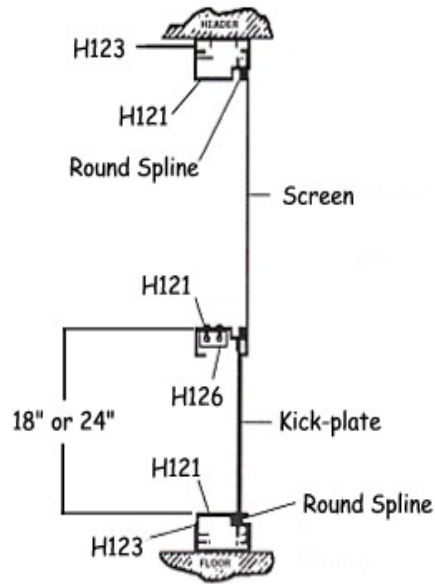

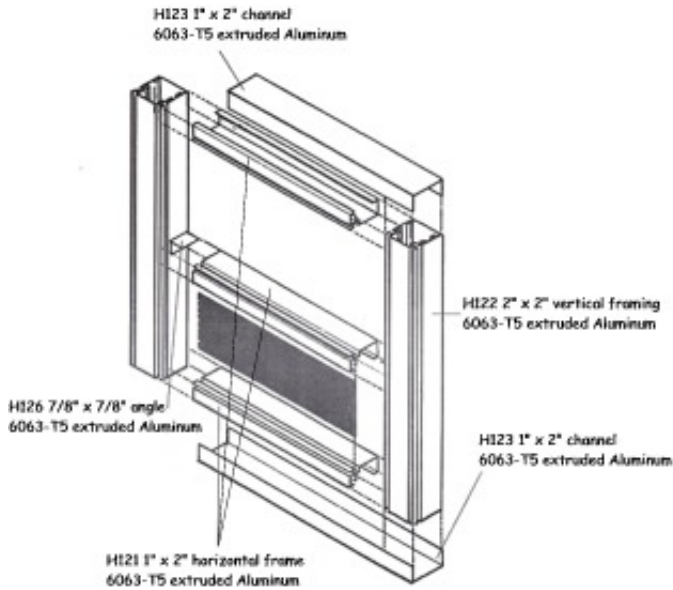

GENERAL

- An out-swinging knock down aluminum door, 3' x 6'8" is standard with each kit
- All panels are bolted together. No silly cables or plastic pieces. The supplied hardware is extruded aluminum for maximum strength and weather-ability.
- The room **MUST** be screwed to a deck or patio. Bottom U channels are supplied and make for an easy vertical rail installation.
- This is a very high quality, extruded aluminum, system that is easily assembled within one to two days depending on the size you are building.
- Attaches to all existing roof lines!
- Color Choices: Frame Panels - WHITE / CLAY / BRONZE
- Full one year warranty against manufacturers defects

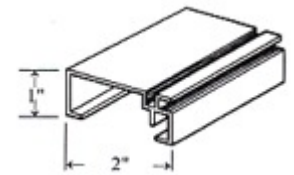

Not included in your kit:

- **Screws to attach u-channel to house wall.**
- **Sealant for u-channel to concrete or floor connection.**
We suggest using Tapcon screws in addition to the sealant.
- **Screen roller to insert screen and round vinyl spline**

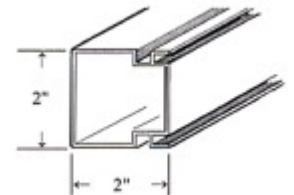

H121 - Horizontal supports...top, bottom and mullion

H122 - Vertical supports
