Measuring and Ordering Information

Complete order information section below using steps 1 through 4.

STEP 1

Awning Model Numbers 0 through 4: Measure window height (A). Use chart to determine awning model number.

STEP 2

Awning Width*: If mounting arms on casings, measure the center to center width of casings (B). For wall mount select any desired width, allow 1" on each side for mounting hardware. Arms cannot be mounted on shutters. Custom widths up to 120" in 1-inch increments.

STEP 3

Color/Pattern Choice: Select the color that best complements your home. Series 5500 includes white finish frame. Series 5700 includes bronze finish frame.

STEP 4 (SERIES 5700 ONLY)

Optional: WeatherGuard™ cover. The bronze finish cover protects fabric when awning is rolled up, from rain, snow and sun.
