- Ideal for hot tubs. These panels are 79" high and a complete sliding screen door system is also part of this package. It comes with either white or taupe frames and a 7 color choices of a triple ply vinyl top.
- The roof rafter system, in a roof truss design, is made with 1" diameter galvalume extrusions for rustproof strength and durability.
- The roof system has been specially designed with a 25 degree pitch (boasting a 111" peak height). This allows for a 4 season set up preventing an extreme accumulation of snow on the roof. An interior heat source (such as a hot tub) could make snow on the roof stick to the vinyl so we would always recommend common sense when dealing with snow.
- 44" sliding door with a specialized top roller system allows for a strong, easy sliding door.
- The vinyl top has a patented system of air circulation vents while being 100% waterproof.
- Roof tensioning system in the end of the roof rafters - accessed from within the overhang using a large thumb nut for ease of operation.
- The combination of roof overhang, roof tensioning system and roof pitch means that water puddles are virtually eliminated.
- All panels are bolted together. No silly cables or plastic pieces. The room **MUST** be screwed to a deck or patio. This is a very high quality, long lasting aluminum framed room that is easily assembled in 4-6 hours.
- The triple ply, heat sealed (welded joints), 14 ounce soft vinyl roof is made to last!
- Vinyl Color Choices - Hunter Green, Dark Blue, Gray, Taupe, Burgundy, Terra Cotta or White
- Frame is 1-1/8" wide x 3/4" deep x 1/8" thick aluminum with baked on enamel finish - **in white or taupe**. Total height of each frame is 79".
- 1" diameter 'galvalume' supporting structure every 44"
- Privacy panels and clear Mylar window panels are optional with this unit. Simply snap them in behind the screen.
- The kit includes complete brackets and moldings to secure your unit to the deck or patio.
- Each screen panel is 44" wide and 79" high for easy walk through
- The support bar on the inside of the screen panels is 1/3 from the bottom on all panels. Gives a clear line of sight when seated.
- Full one year warranty.
- Designed for easy setup on any deck or patio area
- Easy to assemble in 4 - 6 hours

### Warranty

Jardin Gazebo's and Screen Rooms are guaranteed free from all defects in workmanship and materials for a period of 1 (one) year following shipment of the unit from the factory. Due to the nature of the fiberglass screening used in these items, Veranda Jardin cannot guarantee the screen itself after the box has been opened. This warranty is void in the event the unit has been subject to abuse or incorrect assembly. Veranda Jardin is not responsible for damage caused by weather.
